Ryan Perry, PT, DPT, OCS, CSCS, FAAOMPT
Ryan graduated from Bradley University in 2001 with a Bachelor of Science in Physical Therapy. In 2002, he attained his Certified Strengthening and Conditioning Specialist (CSCS). Ryan completed his Manual Therapy Certification (MTC) through the Ola Grimsby Institute in 2004. Ryan proceeded to complete an orthopedic residency in 2005 and subsequently completed his Fellowship and DPT in 2006, also through the Ola Grimsby Institute, which led to him being distinguished as a Fellow of the American Academy of Orthopedic Manual Physical Therapists (FAAOMPT). Ryan has been very active with continuing education with an emphasis on manual therapy.

Program Accreditation:
This course meets the requirements set forth by the Michigan Board of Physical Therapy.

Non-Discrimination Statement:
Select Medical does not discriminate on the basis of race, color, national origin, religion, sex, disability, military status, sexual orientation or age. Select Medical is committed to accessibility and non-discrimination in all aspects of its continuing education activities. Participants who have special needs are encouraged to contact program organizers so that all reasonable efforts to accommodate these needs can be made.

QUESTIONS:
If you have questions, please contact course Coordinator, Maureen Hoehne: mhoehne@selectmedical.com or 804-290-0179.
Current Concepts in Management of Temporomandibular Disorders

Course Description
This two-day course on Temporomandibular Joint Disorders (TMD) is designed to be a basic to intermediate course that provides the clinician with the clinical skill set and marketing strategies to develop and implement a TMD program. Its focus is on properly identifying the PT diagnosis to treat and following this with a combination of evidence-based exercise techniques and manual therapy to provide the best available care for the patient. The course will also review postural / upper cervical implications on the temporomandibular joint. The course will be approximately 40% lecture and 60% lab.

Course Objectives
At the conclusion of this course, the participant will be able to:
• Upon completion the participant will be able to:
  • Understand the anatomy and biomechanics of the TMJ
  • Understand the appropriate definitions and nomenclature relating to the TMJ
  • Perform a thorough evaluation of a patient with a TMJ Disorder
  • Provide manual therapy treatments for TMD, including both joint and soft tissue mobilizations of the upper cervical spine and TMJ
  • Be informed of the available recent evidence for evaluating and treating patients with TMD
  • Construct an evidence-based exercise program based on the individual patient’s presentation
  • Understand the role of posture and the upper cervical spine on TMD
  • Understand basic rehabilitation principles and goals for post-surgical rehabilitation
  • Learn the marketing strategies and clinical skill set to develop a TMD Program
  • Understanding the current documentation strategies when treating a TMD patient

Agenda

Saturday
8:00 Registration and Introduction
8:15 Anatomy and Biomechanics
9:30 Lab: Palpation
10:00 Break
10:15 Upper cervical biomechanics and Postural Influences on TMD
10:45 Examination of the TMJ / Medical Screening
11:30 Lab: Examination for the TMJ
12:15 Lunch
1:15 Pathology of the TMJ & Treatment Strategies
2:00 Lab: Manual Therapy Techniques – Joint Mobilization
3:00 Break
3:15 Lab: Upper Cervical Testing & Stability Screen
3:45 Differential Diagnosis
4:30 Lab: Differential Diagnosis
5:30 Close

Sunday
8:00 Review of Day One
8:15 Principles and Evidence for Treatment Considerations
8:45 Research – Annual Update
9:00 Lab: Exercise Prescription for the TMJ & Cervical Spine
10:00 Break
10:15 Post-surgical Rehabilitation Guidelines
11:00 Marketing a TMD Program & Documentation Strategies
11:45 Case Study, Treatment Plan Design, Q&A, Course Wrap-up
1:00 Close
